SUBJECT: **Declaration of Intent to Reimburse Expenditures with  
Tax-Exempt Bonds**

---

In calendar year 2001, the City of Tempe will be issuing General Obligation Bonds that will be used to fund Capital Improvement Program projects budgeted for fiscal year 2001-02.

Different Internal Revenue Service regulations affect the sale and ultimate use of bonds. One set of guidelines regulate the reimbursements to the City for projects under construction or completed. Another set of arbitrage regulations covers the future use of bonds for projects begun after the sale of tax-exempt bonds.

On June 1, 1995, the City Council designated the Financial Services Director (formerly the Management Services Director) (Resolution 95.35) as the responsible official to declare, on behalf of the City, those projects we intend to either partially or in total reimburse the City with proceeds from tax-exempt General Obligation Bonds.

The attached report lists the projects which we reasonably expect will require some reimbursement. The list is on file in the Financial Services Division, and, as requested by Bond Counsel, is being reported to Council for your information.

If you have any questions with respect to the attached report, please contact Rich Oesterle at extension 8347.
